**Argument:**

The following appeared in a memo from a vice president of Quiot Manufacturing.

"During the past year, Quiot Manufacturing had 30 percent more on-the-job accidents than at the nearby Panoply Industries plant, where the work shifts are one hour shorter than ours. Experts say that significant contributing factors in many on-the-job accidents are fatigue and sleep deprivation among workers. Therefore, to reduce the number of on-the-job accidents at Quiot and thereby increase productivity, we should shorten each of our three work shifts by one hour so that employees will get adequate amounts of sleep."

Write a response in which you examine the stated and/or unstated assumptions of the argument. Be sure to explain how the argument depends on these assumptions and what the implications are for the argument if the assumptions prove unwarranted.

When Stanley Park first opened, it was the largest, most heavily used public park in town. It is still the largest park, but it is no longer heavily used. Video cameras mounted in the park's parking lots last month revealed the park's drop in popularity: the recordings showed an average of only 50 cars per day. In contrast, tiny Carlton Park in the heart of the business district is visited by more than 150 people on a typical weekday. An obvious difference is that Carlton Park, unlike Stanley Park, provides ample seating. Thus, if Stanley Park is ever to be as popular with our citizens as Carlton Park, the town will obviously need to provide more benches, thereby converting some of the unused open areas into spaces suitable for socializing.

Write a response in which you examine the stated and/or unstated assumptions of the argument. Be sure to explain how the argument depends on these assumptions and what the implications are for the argument if the assumptions prove unwarranted.

The following is a letter to the editor of the *Waymarsh Times*.

"Traffic here in Waymarsh is becoming a problem. Although just three years ago a state traffic survey showed that the typical driving commuter took 20 minutes to get to work, the commute now takes closer to 40 minutes, according to the survey just completed. Members of the town council already have suggested more road building to address the problem, but as well as being expensive, the new construction will surely disrupt some of our residential neighborhoods. It would be better to follow the example of the nearby city of Garville. Last year Garville implemented a policy that rewards people who share rides to work, giving them coupons for free gas. Pollution levels in Garville have dropped since the policy was implemented, and people from Garville tell me that commuting times have fallen considerably. There is no reason why a policy like Garville's shouldn't work equally well in Waymarsh."

Write a response in which you discuss what specific evidence is needed to evaluate the argument and explain how the evidence would weaken or strengthen the argument.

The following appeared in a memo from the vice president of a food distribution company with food storage warehouses in several cities.

"Recently, we signed a contract with the Fly-Away Pest Control Company to provide pest control services at our fast-food warehouse in Palm City, but last month we discovered that over \$20,000 worth of food there had been destroyed by pest damage. Meanwhile, the Buzzoff Pest Control Company, which we have used for many years, continued to service our warehouse in Winterville, and last month only \$10,000 worth of the food stored there had been destroyed by pest damage. Even though the price charged by Fly-Away is considerably lower, our best means of saving money is to return to Buzzoff for all our pest control services."

Write a response in which you discuss what specific evidence is needed to evaluate the argument and explain how the evidence would weaken or strengthen the argument.

Argument: "Homes in the northeastern United States, where winters are typically cold, have traditionally used oil as their major fuel for heating. Last year that region experienced 90 days with below-average temperatures, and climate forecasters at Waymarsh University predict that this weather pattern will continue for several more years. Furthermore, many new homes have been built in this region during the past year. Because of these developments, we predict an increased demand for heating oil and recommend investment in Consolidated Industries, one of whose major business operations is the retail sale of home heating oil."

The following appeared in a letter to the school board in the town of Centerville.

"All students should be required to take the driver's education course at Centerville High School. In the past two years, several accidents in and around Centerville have involved teenage drivers. Since a number of parents in Centerville have complained that they are too busy to teach their teenagers to drive, some other instruction is necessary to ensure that these teenagers are safe drivers. Although there are two driving schools in Centerville, parents on a tight budget cannot afford to pay for driving instruction. Therefore an effective and mandatory program sponsored by the high school is the only solution to this serious problem."

Write a response in which you examine the stated and/or unstated assumptions of the argument. Be sure to explain how the argument depends on these assumptions and what the implications are for the argument if the assumptions prove unwarranted.

In an attempt to improve highway safety, Prunty County last year lowered its speed limit from 55 to 45 miles per hour on all county highways. But this effort has failed: the number of accidents has not decreased, and, based on reports by the highway patrol, many drivers are exceeding the speed limit. Prunty County should instead undertake the same kind of road improvement project that Butler County completed

five years ago: increasing lane widths, resurfacing rough highways, and improving visibility at dangerous intersections. Today, major Butler County roads still have a 55 mph speed limit, yet there were 25 percent fewer reported accidents in Butler County this past year than there were five years ago.

Write a response in which you discuss what specific evidence is needed to evaluate the argument and explain how the evidence would weaken or strengthen the argument.

There is now evidence that the relaxed pace of life in small towns promotes better health and greater longevity than does the hectic pace of life in big cities. Businesses in the small town of Leeville report fewer days of sick leave taken by individual workers than do businesses in the nearby large city of Masonton. Furthermore, Leeville has only one physician for its one thousand residents, but in Masonton the proportion of physicians to residents is five times as high. Finally, the average age of Leeville residents is significantly higher than that of Masonton residents. These findings suggest that people seeking longer and healthier lives should consider moving to small communities.

Write a response in which you examine the stated and/or unstated assumptions of the argument. Be sure to explain how the argument depends on these assumptions and what the implications are for the argument if the assumptions prove unwarranted.

The following appeared in a memo from the director of a large group of hospitals.

"In a controlled laboratory study of liquid hand soaps, a concentrated solution of extra strength UltraClean hand soap produced a 40 percent greater reduction in harmful bacteria than did the liquid hand soaps currently used in our hospitals. During our recent test of regular-strength UltraClean with doctors, nurses, and visitors at our hospital in Worktown, the hospital reported significantly fewer cases of patient infection (a 20 percent reduction) than did any of the other hospitals in our group. The explanation for the 20 percent reduction in patient infections is the use of UltraClean soap."

Write a response in which you discuss one or more alternative explanations that could rival the proposed explanation and explain how your explanation(s) can plausibly account for the facts presented in the argument.

Nature's Way, a chain of stores selling health food and other health-related products, is opening its next franchise in the town of Plainsville. The store should prove to be very successful: Nature's Way franchises tend to be most profitable in areas where residents lead healthy lives, and clearly Plainsville is such an area. Plainsville merchants report that sales of running shoes and exercise clothing are at all-time highs. The local health club has more members than ever, and the weight training and aerobics classes are always full. Finally, Plainsville's schoolchildren represent a new generation of potential customers: these schoolchildren are required to participate in a fitness-for-life program, which emphasizes the benefits of regular exercise at an early

age. [Write a response in which you examine the stated and/or unstated assumptions of the argument. Be sure to explain how the argument depends on these assumptions and what the implications are for the argument if the assumptions prove unwarranted.]

The following was written by a group of developers in the city of Monroe.

"A jazz music club in Monroe would be a tremendously profitable enterprise. At present, the nearest jazz club is over 60 miles away from Monroe; thus, our proposed club, the C Note, would have the local market all to itself. In addition, there is ample evidence of the popularity of jazz in Monroe: over 100,000 people attended Monroe's jazz festival last summer, several well-known jazz musicians live in Monroe, and the highest-rated radio program in Monroe is 'Jazz Nightly.' Finally, a nationwide study indicates that the typical jazz fan spends close to \$1,000 per year on jazz entertainment. We therefore predict that the C Note cannot help but make money."

Write a response in which you discuss what questions would need to be answered in order to decide whether the prediction and the argument on which it is based are reasonable. Be sure to explain how the answers to these questions would help to evaluate the prediction.

## Verbal

- 1) 讲的是月球对地球自转的速度的影响（使一天的时间变长）以及冰川融化对这种影响的缓解作用。
- 2) 26 篇上的 mary barton 原题
- 3) 讲的是印度的一个 custom 促使人们行为端正, 同时处罚那些行为不端正的人。但是这些处罚不能是从非那个犯错人的 clan 里来执行的（即给予处罚的人必须是同一个 clan 里的人）因为这样被认为的不尊重那个 clan。
- 4) 讲的是资本主义国家 literal critic 和 historian 研究问题的不同方式, 比如 historian 缺乏某些方面知识导致他们不能像 literal critic 那样去评价事物。
- 5) 文章出自 26 篇的蝴蝶产卵, 但题目不同（虽然还是逻辑题）问的是文章支持了那个选项, 我选的大意是不同 region 的 butterfly 所含的 glycosides 不同。

6) 讲的是海洋捕鱼业和陆地种植业的一些区别，其中种植业能够既保证产量同时保证 biodiversity 而海洋捕鱼业则难以做到。

这次又出现我上次看到的 cacao 的阅读，问题是有些 cacao 的果实不多的原因？

做到一篇非裔美国人的阅读

第一篇阅读是个长文，4 道题目，很多生物化学一类的单词，讲一个叫 R 什么的。提到一个什么行为类似于光合，又怎么怎么不同，还有研究为什么传输 hydrogen sulfide 却不氧化，生物体里面的 hemoglobin cell 什么的

还有个短文讲希伯来文化，和 U 什么的文化比较

以前美国人喜欢喝朗姆酒，后来慢慢就喜欢威士忌了，因为做威士忌的那个东西很容易 distill，而且朗姆在战争时期毁掉了，内陆生长环境也不适合朗姆

实在是记不得太多题。超多三空，六选二。阅读时间比较紧迫。考到单词有 mundane, pejorative (这个单词看了半天一直没想起意思，所以印象深刻) status quo, quotidian, fervent.

考了一个阅读是讲女性杂志在十九法案之前的 role，不算很 actively participate in suffrage 的。

还有一个阅读讲鸟的下单的 size 跟什么有关的。是和鸟类能抚养的小鸟的能力有关之类的。

不知道是不是第一个 V 做的不好，后面两个 V 都没有长阅读。

阅读逻辑说埃及的 mummy 保存更好 一个解释是它闷得技术更好，另一个解释是说埃及很干，有助于保存。问加强。我好像选的是埃及有些地方的 mummy 保存的好 不知道对不对

填空做到好多好多三空题啊。。。。

有一道三空说猴子的行为怎么怎么样，很难研究 balabalabala，后来发现其实他们的行为怎么样怎么样

一个人的最近目标买个自己 party 上的礼服，让自己看上去更怎么样，然后别人看到他会怎么说

写新闻和该文章的有时候思路不同所以有时候会把一篇文章改成表达不同意思，所以老板招人的时候要招什么样的人

JJ 出现过的题目（详情请找近期 JJ）：

- Mark Twain
- Southern Confederacy

逻辑题（大概的内容，真题还有别的条件）：

- 过去海龟数量减少，因为人们使用了 shrimp net，最近得知海龟死亡率增加，发现是 shrimp net 的问题。。。为了防止这问题，要控制 shrimp net 的使用。

有一道阅读题的 key word 是 CO<sup>2</sup>, 光合作用, oxygen, 的。。。。

关于 British editor 的，说当时的 paper review 都很差，甚至对人没帮助，然后什么 editor 不喜欢留下真实名字，有提及过 editor 是 female 的问题等。。。

阅读 做到 社会学的一些题目 记得其中一个似乎是在 Africa 的 female book club, 她们提倡 members 阅读的时候 自己思考而不是去看专业评论的评价 什么的

有一个阅读是讲 艺术作品和 一些收藏家 。那些收藏家，大多都是有一定政治

地位的。然后有关于这些被收藏作品，代表 **individual taste** 还是 **public** 喜好的讨论。

有一个阅读是讲一个 **huge house**。原来认为 这个 **house** 里的房间都是可以住人的，后来发现 有些 **rooms** 缺乏一些设施 比如 **kitchen**。有人提出那些被 **remodel** 过的才是当时用于居住的

有一个阅读讲 某学者 提出某时期 有许多 **female** 创作曲子 当时女性有机会得到很好的 **musical education** 但是那个时期 她们没有 **sign** 所创作的乐曲 题目中有问哪个是符合问中意思的。选项有 **women** 比 **men** 更多的从事创作；只有 **noble** 的女性才有机会得到 **musical education**。其他记不清楚了。

一篇讲的是比较一个什么舞蹈和 **square dance**，好像讲了那个什么舞是宗教用途，然后简单说了一下这个舞怎么跳，**square dance** 也用类似的方法跳。此外，这两个舞蹈还有两个相似的地方，一个是跳舞的时间，从日落到日出；还有一个貌似是地点，这个完全记不清了。

另一篇讲同样都经历了大灾难，为什么哺乳动物能存活下来而恐龙没存活下来。因为恐龙块大。在相安无事的日子里块大有块大的好处，恐龙占据了很多地方，而哺乳动物只能生活在其他一些地方。但是等到一有灾难，体积大一秒钟就变缺点了，这里有题。而哺乳动物既得益于数量多，又得益于体积小，所以存活了。填空也有个亚马逊雨林的，和新东方以前一道例题讲得内容差不多，双空，第一个空选项有 **appearance**，**stability** 什么的

还有啥音乐评论家写出的乐评总是———，但演奏音乐的时候总是怎么样，但是人家却注意———standard

阅读

有个 H 啥啥是 200000 还是 2000000 万年前的时代，用火的，但近期发现了 500000 还是 5000000 万年前烧过的骨头石头遗迹，但是那时候 H 啥啥还没有。虽然如此，但这并不能说明什么，因为———这里叫你 5 选一填半个句子进去

有个歌手叫啥我忘记了，开始做 jazz 的，后来也弄 blues，而后也弄 rocks，最后还去做了女演员。问第一句描述这个歌手的话起什么作用

还有讲玛雅的

还读到 cacao，问为什么果实和叶子不能同在？

还有个 ice level 啥的

还有个讲药的，开发新药多少年，在病人身上多久失效，记得里面的数字有 5 年，15 年，20 年，具体对应哪个忘了 0 0

最后一篇阅读时间不够了，没读，题目倒是看了，问你根据文章推断 chemical 是啥，多选，还有在文中提到火星上的 m 什么（忘记怎么拼了，长得有点像 methanol 去掉 nol）的原因是？多选
